Celebrating Our Week

Friday 20th May 2022

Infants looking back at last week

This week we have been extremely busy! We took part in a successful times table world record attempt; designed, prepared, ate and evaluated salads that were a healthy balance of the food groups as well as being delicious; have continued to monitor and keep healthy our beanstalks; wrote and recorded audio for our own class book 'The Infants' Terrible, Horrible, Very Bad, No Good Day' and visited The Arc for a morning of fantastic PE activities. Reception have really enjoyed the story "Avocado Baby" before writing their own versions. In Maths they doubled numbers and wrote their own number sentence.

Infants—Looking forward to next week

We hope our beanstalks will all have grown as much as they can in their pots and have been brought home for planting in soil - do let us know if you get any beans. We will be looking at the Gustav Klimt artwork 'The Tree of Life' and using our learned skills to create our own. We will be debating whether or not Jack was foolish to hope in magic beans. Reception will be reading the story "A Bit Lost" and looking at repeated phrases. In Maths they will be doing repeating patterns and will be learning to count up in 2s.

Lower Juniors looking back at last week

We have started to write our narratives for The Egyptian Cinderella, the quality has been exceptional and I am very proud of their work. In Maths, Y3 continued to tell the time, looking at the difference between am and pm. Y4 have finished their unit on money and will have their assessment next week. In Topic, we started creating a 'for sale' poster for our Egyptian homes which are looking like fascinating builds.

Lower Juniors looking forward to next week

We will be pausing our work on the Egyptian Cinderella to complete a piece of writing based on The Queen's Jubilee. This is just a week's project and we will be returning to our Egyptians work after half term. In Maths, we will continue our work on Time. Y3 are going to be finding both 12 and 24-hour time whilst Y4 add or take away an amount of time from a set time.

Upper Juniors looking back at last week

We have had great fun this week starting another engineering project - building a controllable locomotive. We have constructed the main frame this week by using gent saws to cut wood for it. In Topic we have continued with our Egyptian timelines and looked at the process of mummification and what it involves. We have been writing our own non-chronological reports about Egyptian Gods and Goddesses. Y5 have been working on place value in Maths and Y6 have started a project about their dream job including salaries and tax.

Upper Juniors looking forward to next week

We will move on to creating our structure for our locomotive and then adding the gears and electrics - this is going to be the tricky bit! We will start some work in Literacy about the discovery of Tutankhamun's tomb in preparation for a newspaper report and in Science we will continue with our work on Evolution. As well as this, we will be completing work on the mummification process.

Best Work of the Week was awarded to Maisie C, Matthew, Finlay, Lilly, Tayla, Libby, Beshlie, Jessie and Kyle

House Points

Haddon - 36
