SOUTH DARLEY C.E. PRIMARY SCHOOL

Celebrating Our Week

Friday 25th June 2021

Infants— Looking back at last week

We have been doing lots of work on money (Y1) and time (Y2) and have learnt the value of coins and telling the time on an analogue clock to 5 minute intervals. These are very practical 'real life' skills so any follow up at home would help in embedding their new skills. We have found out lots about India and tried some yoga poses as well as creating beautiful garlands which we wore with bhindis. Reception have had a lovely time finding about African animal and making a animal fact file along with making a zebra mask. They have also been counting with (real) money.

Infants—Looking forward to next week

We will be using the story 'Chapati Moon' to learn about Indian food, trying some different dishes before making one of our own. Work on time and money will continue and we have a maths investigation about spending money in a sweet shop. We will be adding some km to the school total for our Kolkata trip at the cricket pitch on Monday and filming our parts in 'Hoodwinked'. Reception will be recapping time and days of the week. They will be looking at nonsense poems and identifying common patterns in each verse.

Lower Juniors looking back at last week

Y3/4 have finished their non-chronological reports about the Olympics and have produced some fab pieces of work. We have practiced our songs for 'Hoodwinked' and in maths we have explored different shapes looking specifically at triangles and quadrilaterals. In science, we investigated the weight of gases and have planned an experiment using fizzy drinks.

Lower Juniors looking forward to next week

Next week we are going to start planning and writing a persuasive advert for the Peak District before we then build it into an advert to persuade people to visit Japan. In Science, we are going to conduct our experiment and then explore how the water cycle works. In Maths, Y3 are looking at parallel lines, 2D and 3D shapes and Y4 investigating symmetry. We are looking forward to the start of filming our school production so please send children in green/brown bottoms on Tuesday and Wednesday.

Upper Juniors looking back at last week

We have been busy writing and typing up their 'plague themed' newspaper reports. They have worked really hard and included lots of the features we have discussed in class. The children have also been making their Topic books look fab with work about their plague bags and tourist information leaflets about Eyam. In Science we revisited the Topic of Rocks and the children were really impressive. They remembered lots of things we learnt about in Y3 and 4

Upper Juniors looking forward to next week

We look forward to hearing about the sports people the children have found out about for homework. This will lead into work in Literacy about emotions and feelings when competing. As well as this, the children will be busy rehearsing and filming sections of 'Robin Hood'. We will be looking at the Water Cycle in Science and getting some steps in for our walk to Kolkata.

Best Work of the Week was awarded to Belle, Elsie, Ivie, Molly, Flo, Matthew, William, Jacob, Isla, Sophia and Maisie

House Points

Haddon - 17

Riber— 51

Chatsworth – 38

**House Points Prize Winners—
Charlie & Libby**

Our Upper Junior Class settling in to their temporary accommodation whilst our interior roof void is inspected and repaired. Thank you to all at St Mary's for stepping in and helping out.
