

ENJOY LEARNING:  
EMBRACE CHALLENGE!

# SOUTH DARLEY C.E. PRIMARY SCHOOL

## Celebrating Our Week

Friday 8th October 2021

### Infants— Looking back at last week

Reception have been reading wonderful stories by Judith Kerr and conducted a book review of their favourite story. In Maths they enjoyed adding and subtracting their peers as they got on or off their magical train. KS1 have completed their work on place value and done some super assessments. We have explored non-fiction texts about sea creatures and created signs, labels, headings, captions and maps with keys. We compared the lives of Queen Victoria and Queen Elizabeth II and learned about the rise and fall of the British empire. We found out about the effects that global warming are having on our planet.

### Infants—Looking forward to next week

Reception are in for a treat as a tiger is coming for tea! In Maths they will be partitioning numbers to 10 by putting sheep into the correct pen and forming a number sentence for their results. The infants will be working on addition and subtraction, using place value skills. They will be exploring non-fiction features of texts. The Queen Elizabeth work will be completed by looking at the development of the Commonwealth and the upcoming Commonwealth Games in Birmingham. Pupils will be thinking of ways to reduce and reuse some of our waste to help to conserve the Earth.

### Lower Juniors looking back at last week

Y3&4 have produced some great balanced arguments on 'Should Jim leave the workhouse?' In Handwriting, we have been working on letter formation, presentation and personal style. We have started to write up our Science investigations based on friction, including creating an equipment list, prediction and method. In Maths, we have been looking at addition missing number problems.

### Lower Juniors looking forward to next week

We are starting a new piece of writing exploring the recent events of Jim's escape. We will plan, write and edit a newspaper report that describes the events both for and after Jim's escape. In Maths, we are going to move onto subtraction and use the rule of inverse to solve different questions. In Science, we will look at which materials are magnetic and which are not.

### Upper Juniors looking back at last week

We have been exploring the artist William Morris and using the iPads and computers to produce work in the style of his art. We have been busy finding out about different Industrial Revolution inventions from each other, and then using these facts to produce a very informative piece of Topic work. In Maths we have been focusing on addition and subtraction and we have been planning our own animations in Computing.

### Upper Juniors looking forward to next week

We look forward to carrying out our experiment to do with friction next week – we will be testing various materials on the Infant scooter wheels and deciding which would make the best brake pads. After reading more of our text 'Street Child', we are going to write a balanced argument to debate whether Jim should escape from the workhouse or not. We will start work on multiplication and division in Maths.

**Best Work of the Week was awarded to** William, Paddy, Sophia, Walter, Ella, Isla, Leah, Edie, Mia, Fiorella and Lilly

# House Points

**Haddon - 97**

**Riber— 106**

**Chatsworth— 82**

**House Points Prize Winners—  
Isabella & Matthew**

# What's on next week

Mon 11th	
Tues 12th	Individual Violin Lessons TAG rugby 10—3 Highfields Lumsdale selected children only. Please provide packed lunch.
Weds 13th	Y3/4 PE. Please come dressed in PE kits Juniors Primary Sports Evening 3:45pm Highfields Lumsdale Y5/6 Swimming
Thurs 14th	
Fri 15th	Juniors music lessons. Infants and Y5/6 PE. Please come dressed in PE kits

# Sports Fixtures and Results

## PE Stars of the Week

Safiya,  
Haris &  
Caitlyn

Orla,  
Lucas &  
Joseph

Ella &  
Thomas

## Primary Sports Evening Session 3 Cricket and parachute team work

Don't forget the Juniors TTRS girls –v boys battle taking place this week. The battle finishes next Wednesday after school.

## Wider Opportunities Music lessons

Junior children are preparing to play the violin, this years musical instrument choice for lessons
